your love story unfolds.

NOUS is not your ordinary wedding destination.

This is Southern France redefined

Exclusive, intimate, unapologetically authentic.

We create atmospheres
where romance meets edge,
where timeless beauty
flirts with artistic rebellion.

Think luxury, fashion-inspired details,
controlled chaos,
and that ever-present,
critical eye for aesthetic perfection.

Bespoke weddings infused
with refined styling,
editorial elegance,
and thoughtful concept design.

That's NOUS.

Hi, we are Kay and Angela!

With a creative and management background, we are devoted to create, organise and design your dream wedding. At NOUS, we offer an all inclusive professional service of every wedding detail.

We offer 3 beautiful wedding venues

NOUS ~ Our own playground. A valley among vineyards, nothing but silence, raw and pure with serene elegance and breathtaking views. An outdoor location full of light and freedom. For those who find beauty in simplicity and space.

Chateau Domaine La Tourelle ~ A botanical garden with the most beautiful wild flowers and Mediterranean trees. A romantic setting that balances allure and artistry.

Chateau d'Agel ~ A monumental castle, cinematic and ephemeral, beautiful. Here you can get married under centuries-old trees and symmetrical perfection, with an echo of French history in every wall.

Our Vow to you?

That we will honor your story.

We will aim to infuse every detail with care,
innovation, and soul.

To go beyond trends, keeping things intimate,
authentic, editorial, classic... yet unmistakably
personal and profesional.

Dear Angela & Kay,

Thank you SO much for hosting our wedding at NOUS! We cannot express how grateful we are. The entire experience was stunning and truly beyond our expectations! From our very first call discussing our dream wedding to the big day itself, everything was perfectly organized.

To all future guests and soon-to-be married couples, we highly recommend NOUS as both a stay and wedding venue. The variety of spaces at the property offers so much flexibility, and the cherry on top is the breathtaking view from the hill overlooking the charming village of Agel. It created the perfect backdrop for our special day.

We will definitely be returning to NOUS in the future!
Thank you again, Kay & Angela, for making our wedding unforgettable.

Warm regards,
Wouter & Merel

We had our family friendly wedding at Angela and Kay's lovely venue. They were fantastic from start to finish through all of the planning right until the end. They were kind and welcoming with us and all our guests. The gites are beautifully renovated with fully equipped kitchens. The venue itself has stunning views and is very child friendly. We can't say thank enough for all their efforts. They thought of everything!

From the moment we passed through Nous in the summer, we knew this would be the perfect place for our wedding. The peace, the serene atmosphere and the paradise for children made the weekend unforgettable. Everyone enjoyed the location, where parents could relax while the children enjoyed themselves.

The ceremony was magical, the location beautiful and the atmosphere intimate. The cake, a red velvet with Oreo filling, was delicious and a big hit, as were the donuts for the children. Sunday brunch, with a view from the mountain, was perfectly prepared, with delicious French cheeses and croissants.

The pool party was the ideal start to the weekend. It was a wonderful way to release the stress and prepare for the big day. The Nous team was fantastic. When the weather turned and we had to adjust the location, Angela and Kay immediately came up with three options and arranged everything quickly and perfectly. We really felt taken care of and we really felt like guests at our own wedding.

Our guests were just as impressed by Nous and the chateau as we were. The locations were breathtaking and the service top notch. Nous is the perfect location for an intimate wedding, surrounded by friends and family in a magical setting.

Magic! That is the word that best describes our experience.
